

ULTRASOUND THERAPY 1&3 Mhz.

Programmable micro controller based advance therapeutic Ultrasonic Therapy device produce sound waves of 1 & 3 MHz frequency

SPECIFICATION

- Model : Ultrasonic Therapy Unit
- Operating Modes : Continuous / Pulse Mode
- Pulse Mode : 1:1, 1:3, 1:5, 1:7, 1:9
- Operating Frequency : 1 & 3 MHz
- Output : 15 Watts max. in continuous Mode & 21 Watts max. in Pulse Mode
- Ultrasonic Power Density : Up to 3.5 Watts / Sq cum
- Power Supply : 220 Volt AC/50 Hz
- Output : Two separate outputs 1Mhz & 3Mhz
- Output Frequency : It can be varied by intensity control
- Display : Interference frequency indicator by LCD Display.
- Timer : 0-99 minutes
- Pre Fixed Programs : 27 Program
- Treatment Time : 0 to 99 Minutes

STANDARD ACCESSORIES

1. Ultrasonic Applicator 2 PC
2. Main Cord 1 PC
3. Unit Cover 1 PC
4. Instruction Manual 1 PC

AP CS-103
